Well thought through right down to the finest detail – Inside and out.

For most people, the kitchen is the heart of their home. What counts most for them are the individual creative options and the design. For us, the highest-quality technology, the most convenient functionality and almost unlimited equipment options are the indispensable inner values. Only the best is good enough for us. Together with highly capable suppliers, our product development is based on innovation and consistently excellent quality.

Individual kitchen design – as full of variety as life itself. What could be more fascinating than life in general and the diversity of people and in particular the way they live? For our kitchens, we focus not only on the obvious things such as quality and design, but also on innovation, individual feasibility and customisation.

Always following the motto: The details make the difference!

QUALITY TIME

A matter close to the heart.

Welcome!

Wishes become reality.

The last boxes have been cleared away, the workmen have left and your best friend has come to visit for a whole week. Things are so wonderful! – it's finally time to enjoy your new home to the full. Quickly jot down some final ideas and then nothing can stand in the way of a relaxing first evening.

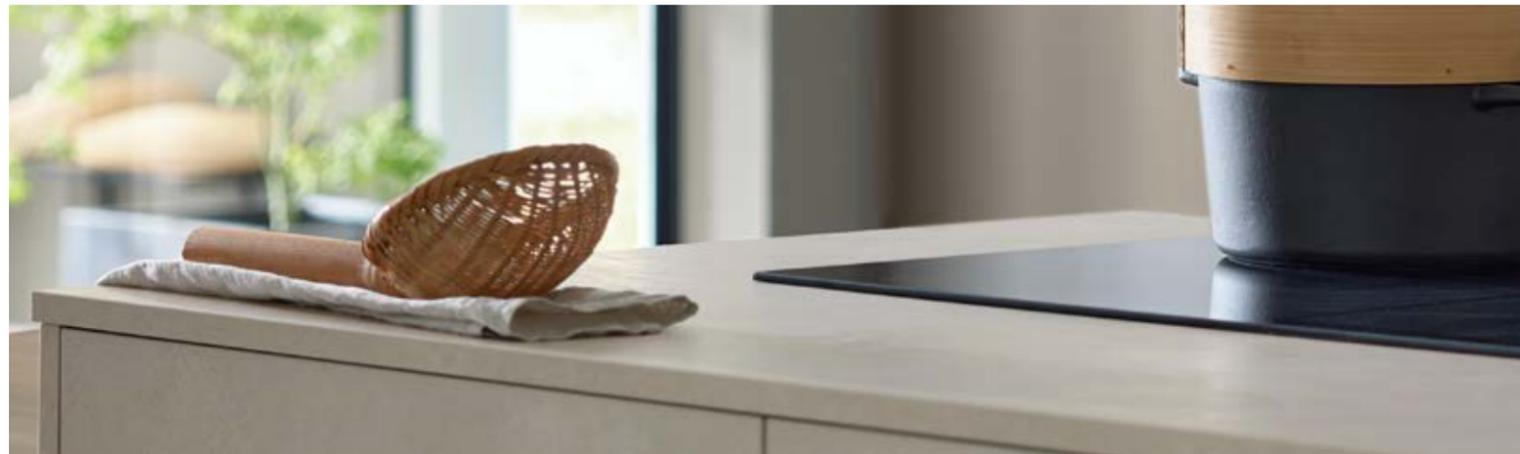

The long weeks of planning and renovating have paid off and a dream has come true. Specially planned to span all rooms, this living concept combines functionality and design right down to the finest detail. It is so practical to be able to quickly hide away your workspace behind the pocket door and to use the easy-glide table extension to provide more space for quality time with guests in the blink of an eye.

WORK-LIFE BALANCE

Harmony in
design & function.

Welcome!

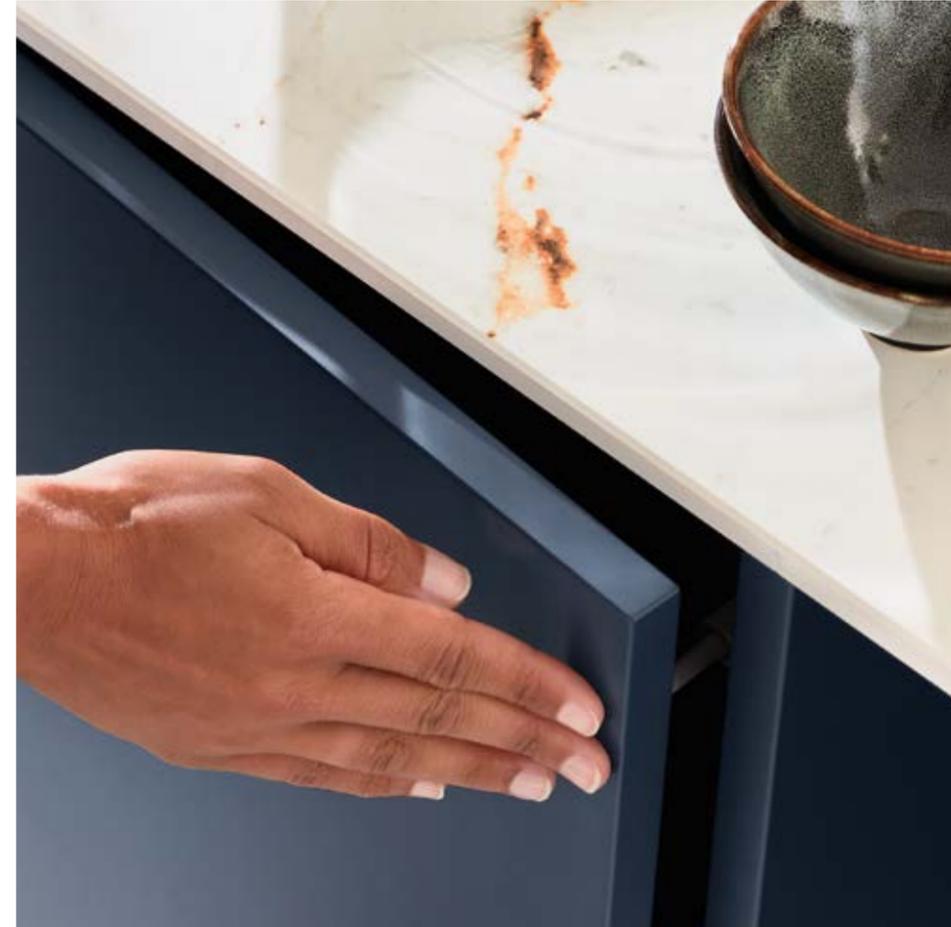

Strength is born of calmness.

Harmony is essential for a relaxed life. If the look, feel and functions of your home are in line with your own aesthetic ideas, a stressful day will be quickly forgotten and an inspiring feel-good space will be created. Now it's time to concentrate on what really matters.

When cooking and living are equally important, the ultimate goal is the individual and harmonious customisation of open-plan living concepts with satisfaction guaranteed. When all is said and done, it is important to sit back, relax, cook, live, laugh and enjoy life – without any compromises and in harmony with one's true self.

LOVE STORY

Perfectly happy.

Hidden treasures.

You've won the pitch, closed your files and you're finally done for the day ... What could be better than coming home after a successful day, reviewing what you have achieved and being able to relax and enjoy the evening?

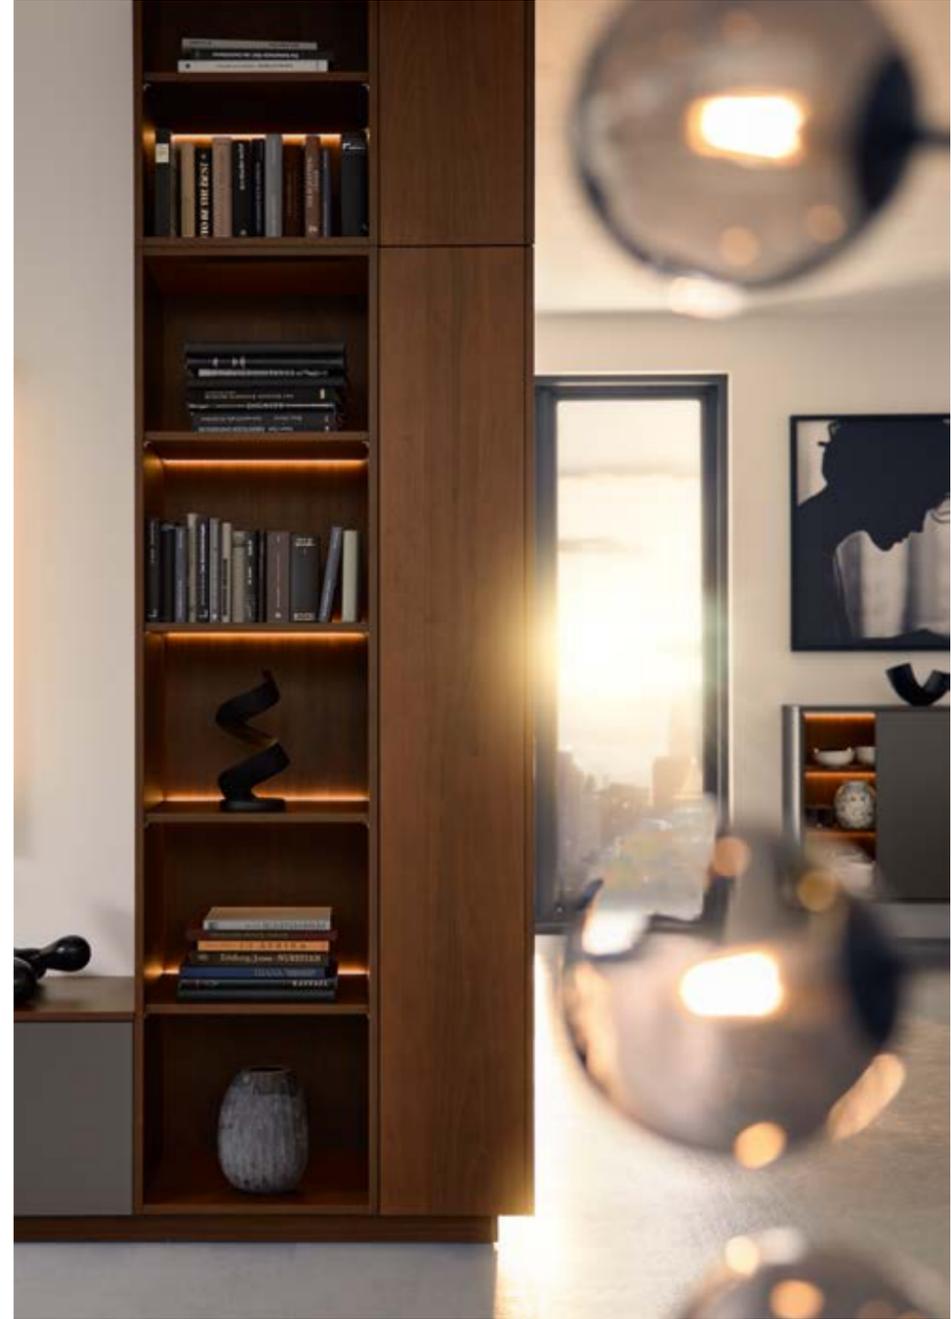

You cannot buy happiness and contentment. But it is possible to enhance this experience when you feel comfortable and relaxed in your own home. After all, in these hectic times it is increasingly important to create harmonious retreats that span all rooms, where you can celebrate life and your appreciation of aesthetics, convenience and order.

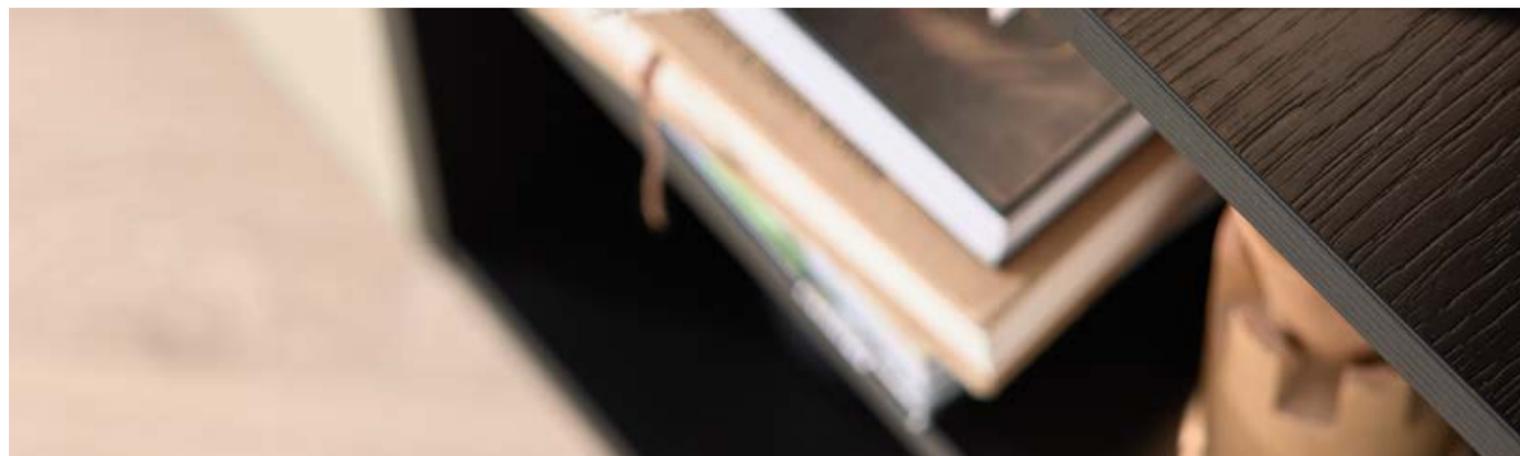

TEAMWORK

Living and working at home.

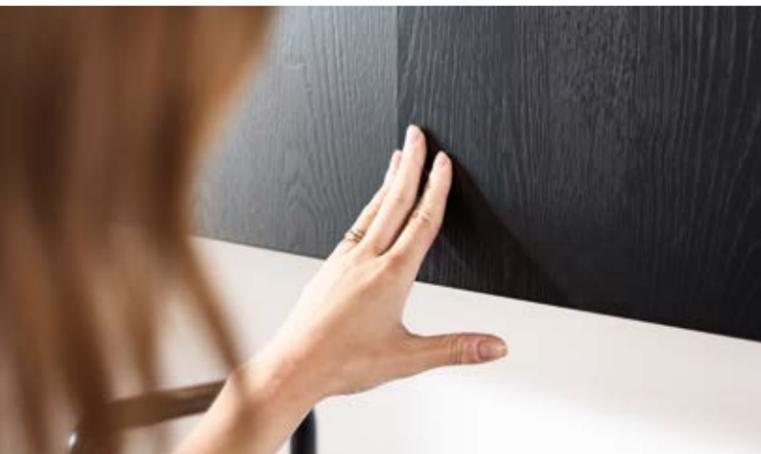

Simply take a break together, cook, wind down and leave work behind. That was the plan – and it worked. Thanks to the well thought-out spatial concept, not only the hidden kitchen highlights become visible at second glance, but also the cleverly integrated office area.

With pleasure.

Flexibility and creativity in professional and private life are more in demand than ever and are the motivation for us to create perfect room concepts. With a sense of aesthetics, the desire for order and the need for individual solutions, everything can be expertly accommodated in one space.

A MAN'S HOME

Tough on the outside, gentle on the inside.

Touring the countryside on a Harley, enjoying good Scotch whisky with your best friend, walking for hours in the woods with your dog and then tucking into homemade burgers...

This is the DNA that forms the basis for this open-plan living concept.

Welcome!

Invaluable for a lifetime.

It's time to meet up, plan the next motorbike tour and just hang out together again... It's great when your living space matches your own personality so perfectly that friends and family are always glad to accept your invitation to come over and simply feel at home.

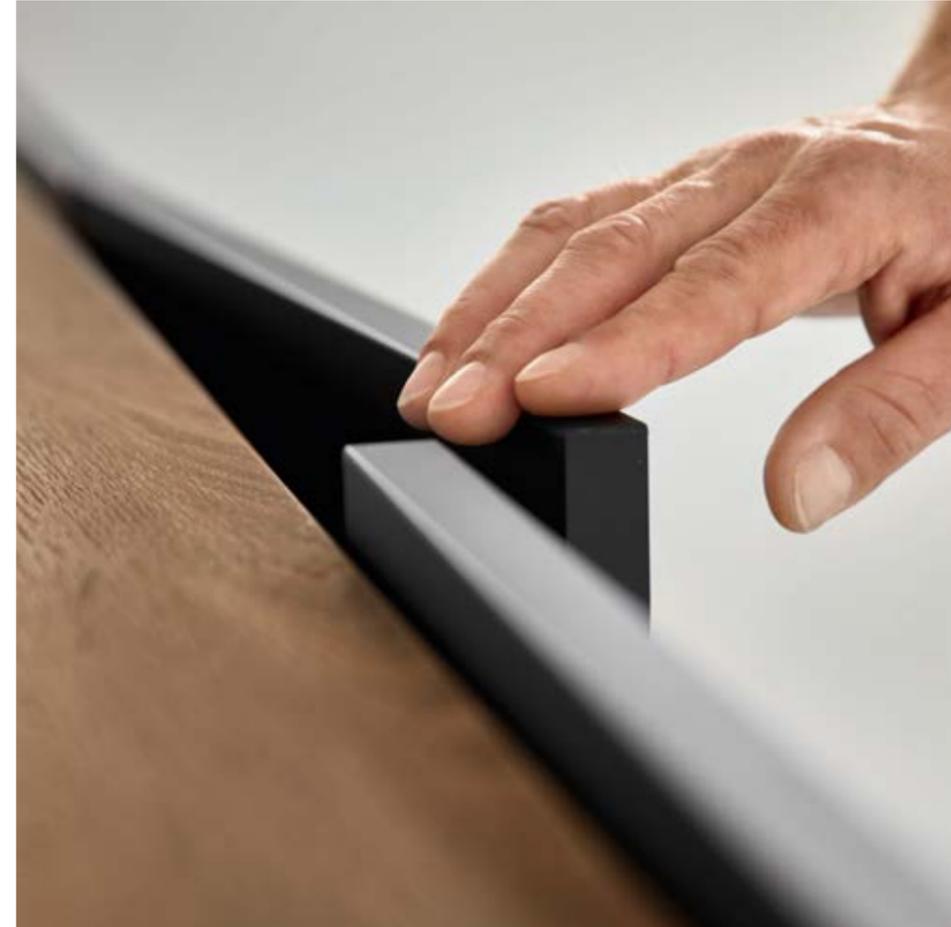

When authenticity and quality play such an important role in your life, what could be more logical than integrating these values into your own four walls? Not having to make any compromises and creating customised individual solutions – this is what we always strive for.

MAMAMIA

Family bonds.

Multi-generational households are becoming increasingly common. And yet it is often quite a challenge to cater for all preferences and tastes equally. For us, this form of planning is a matter close to our hearts. We design well thought-out room and kitchen solutions for the entire family - because together everything is so much more enjoyable.

Welcome!

Mmm – grandma is cooking.

Never miss out on grandma's cooking skills again.
What a joy it is when the family bonds are so close and the
space so generous that everyone benefits and time can be
spent together at home.

Every age is special, every taste is individual and every desire for convenience, quality and design is perfectly natural. And together, all of this is the basis for our kitchen planning, which is carefully thought through right down to the smallest detail.

WOMAN POWER

Home at last.

Challenge accepted.

Even if it sometimes seems as if you have too many wishes, expectations and demands all at the same time, it is always worth believing in them and never settling for less. For us, it is always a pleasure to help make people's dreams come true and to actively encourage individual wishes.

Was gibt es Schöneres, als das Gefühl zu haben, endlich angekommen zu sein. Neue Stadt, neuer Job, neues Zuhause – beruhigend zu wissen, dass alles wieder seine Ordnung hat und alle Wünsche sich erfüllt haben.

FAMILY TIME

Togetherness.

The more people there are in a household, the more exhilarating life becomes. It is, of course, also more demanding. This makes it all the more important to have practical and functional solutions that not only make everyday life easier, but also ensure that you have time for the really important things in life...

Open sesame!

There is so much to discover and everything is more fun when you do it together. Looking at the world through the eyes of a child, stretching boundaries and yet still keeping practicalities in mind. Sometimes it is important to see things from a different perspective.

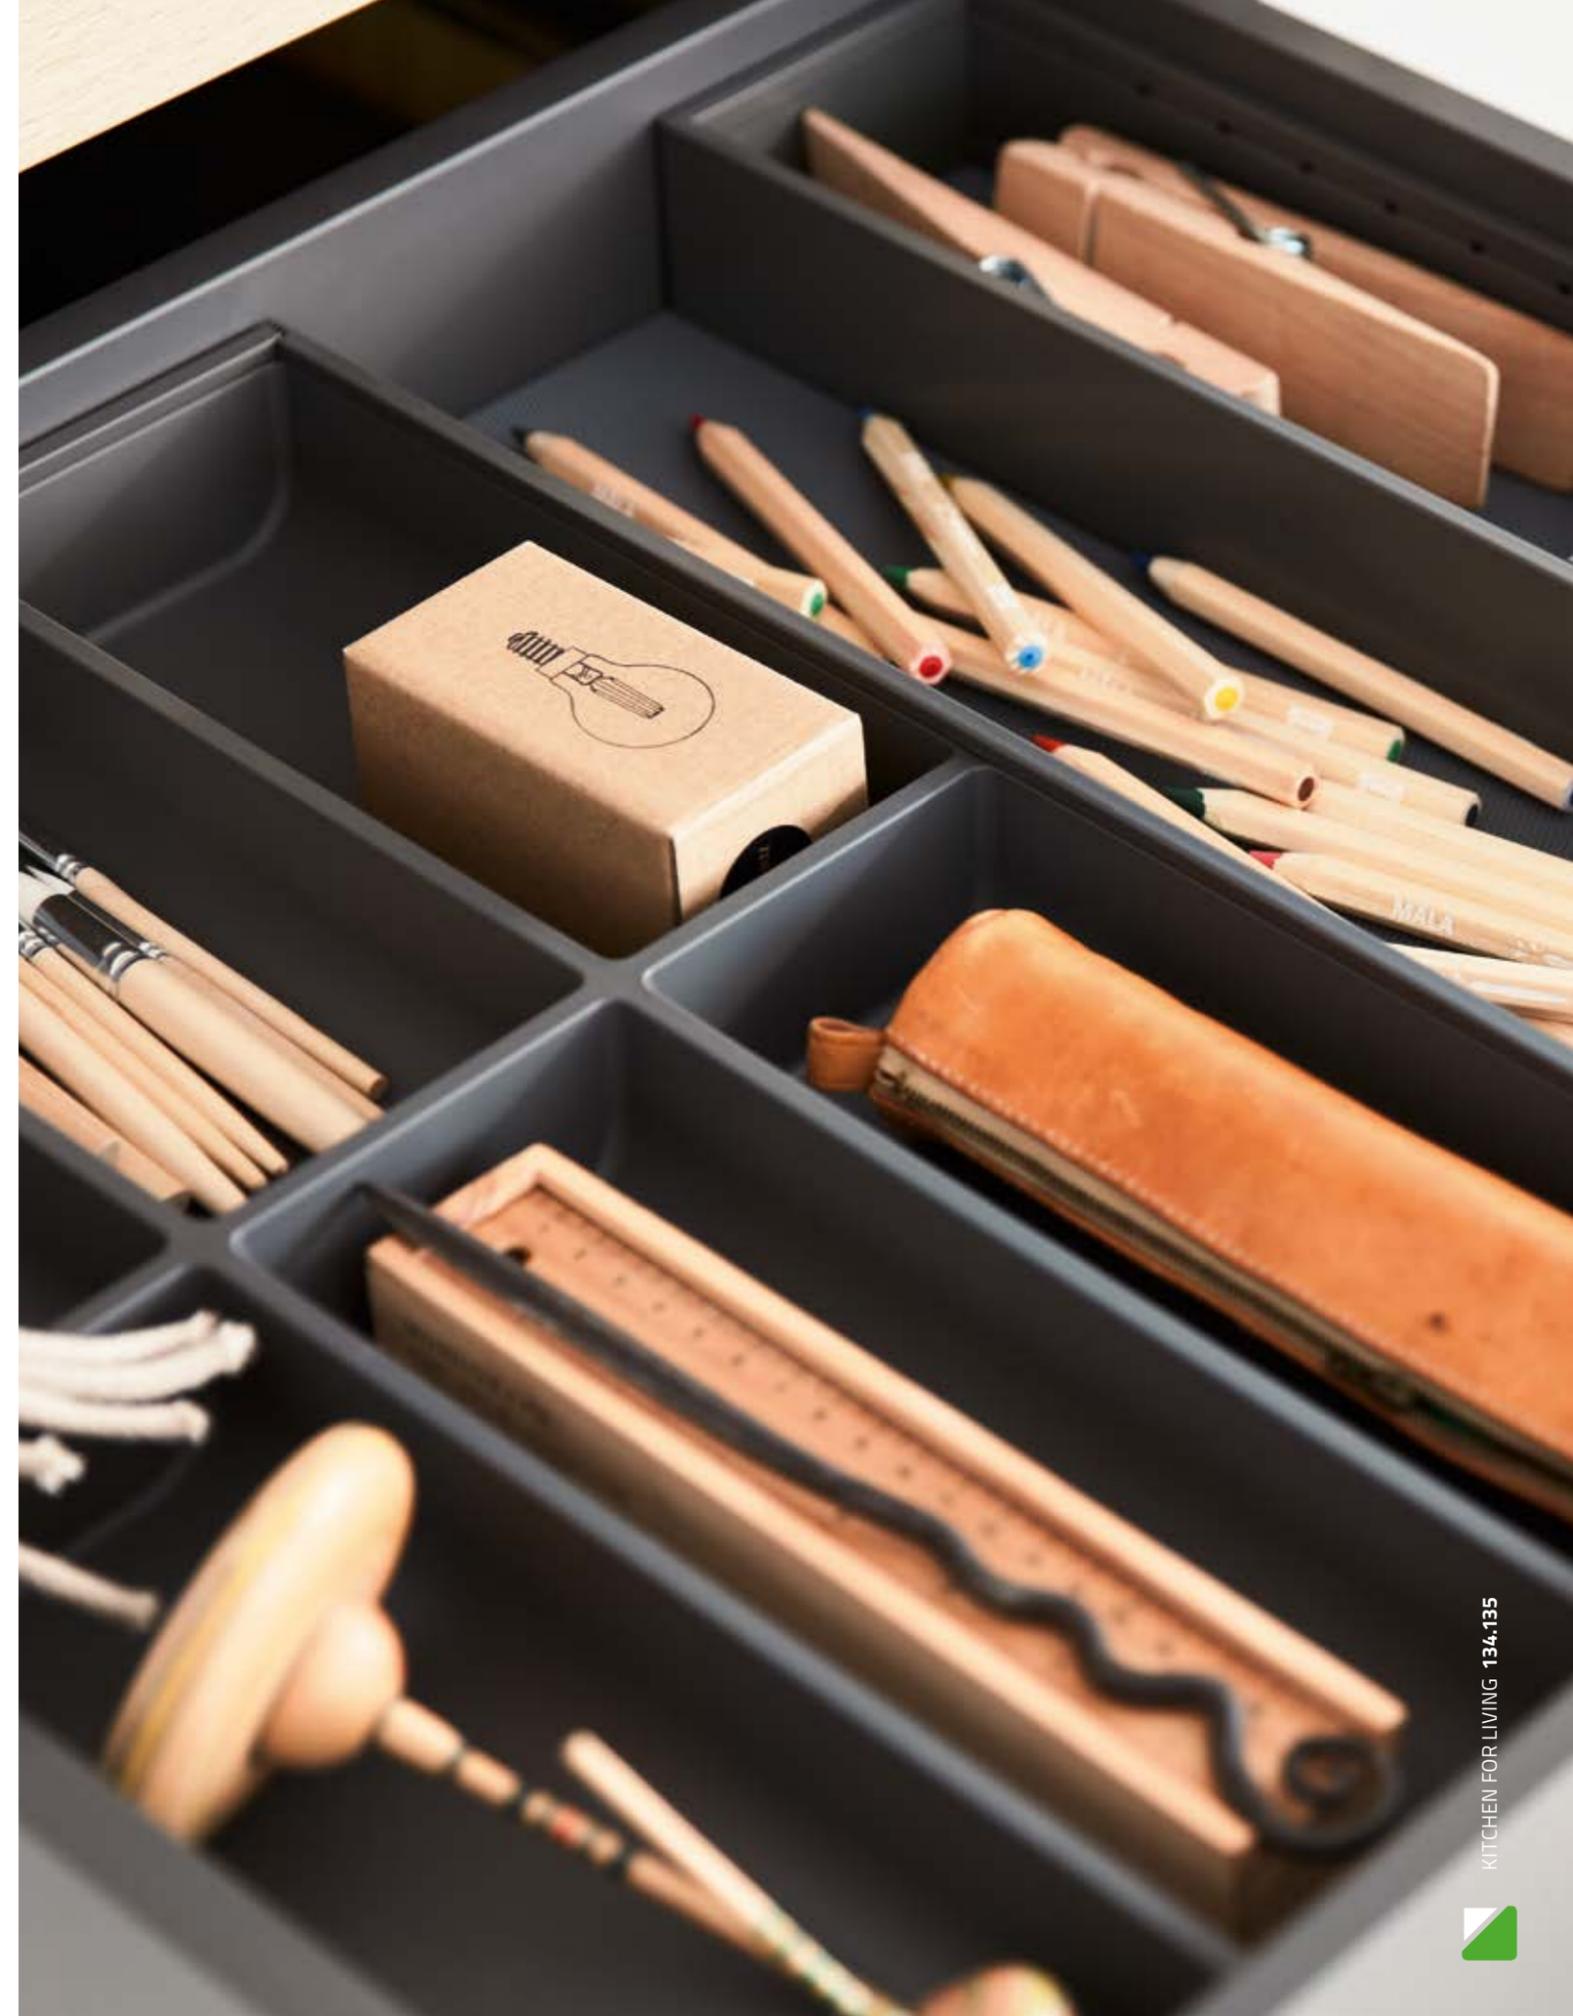

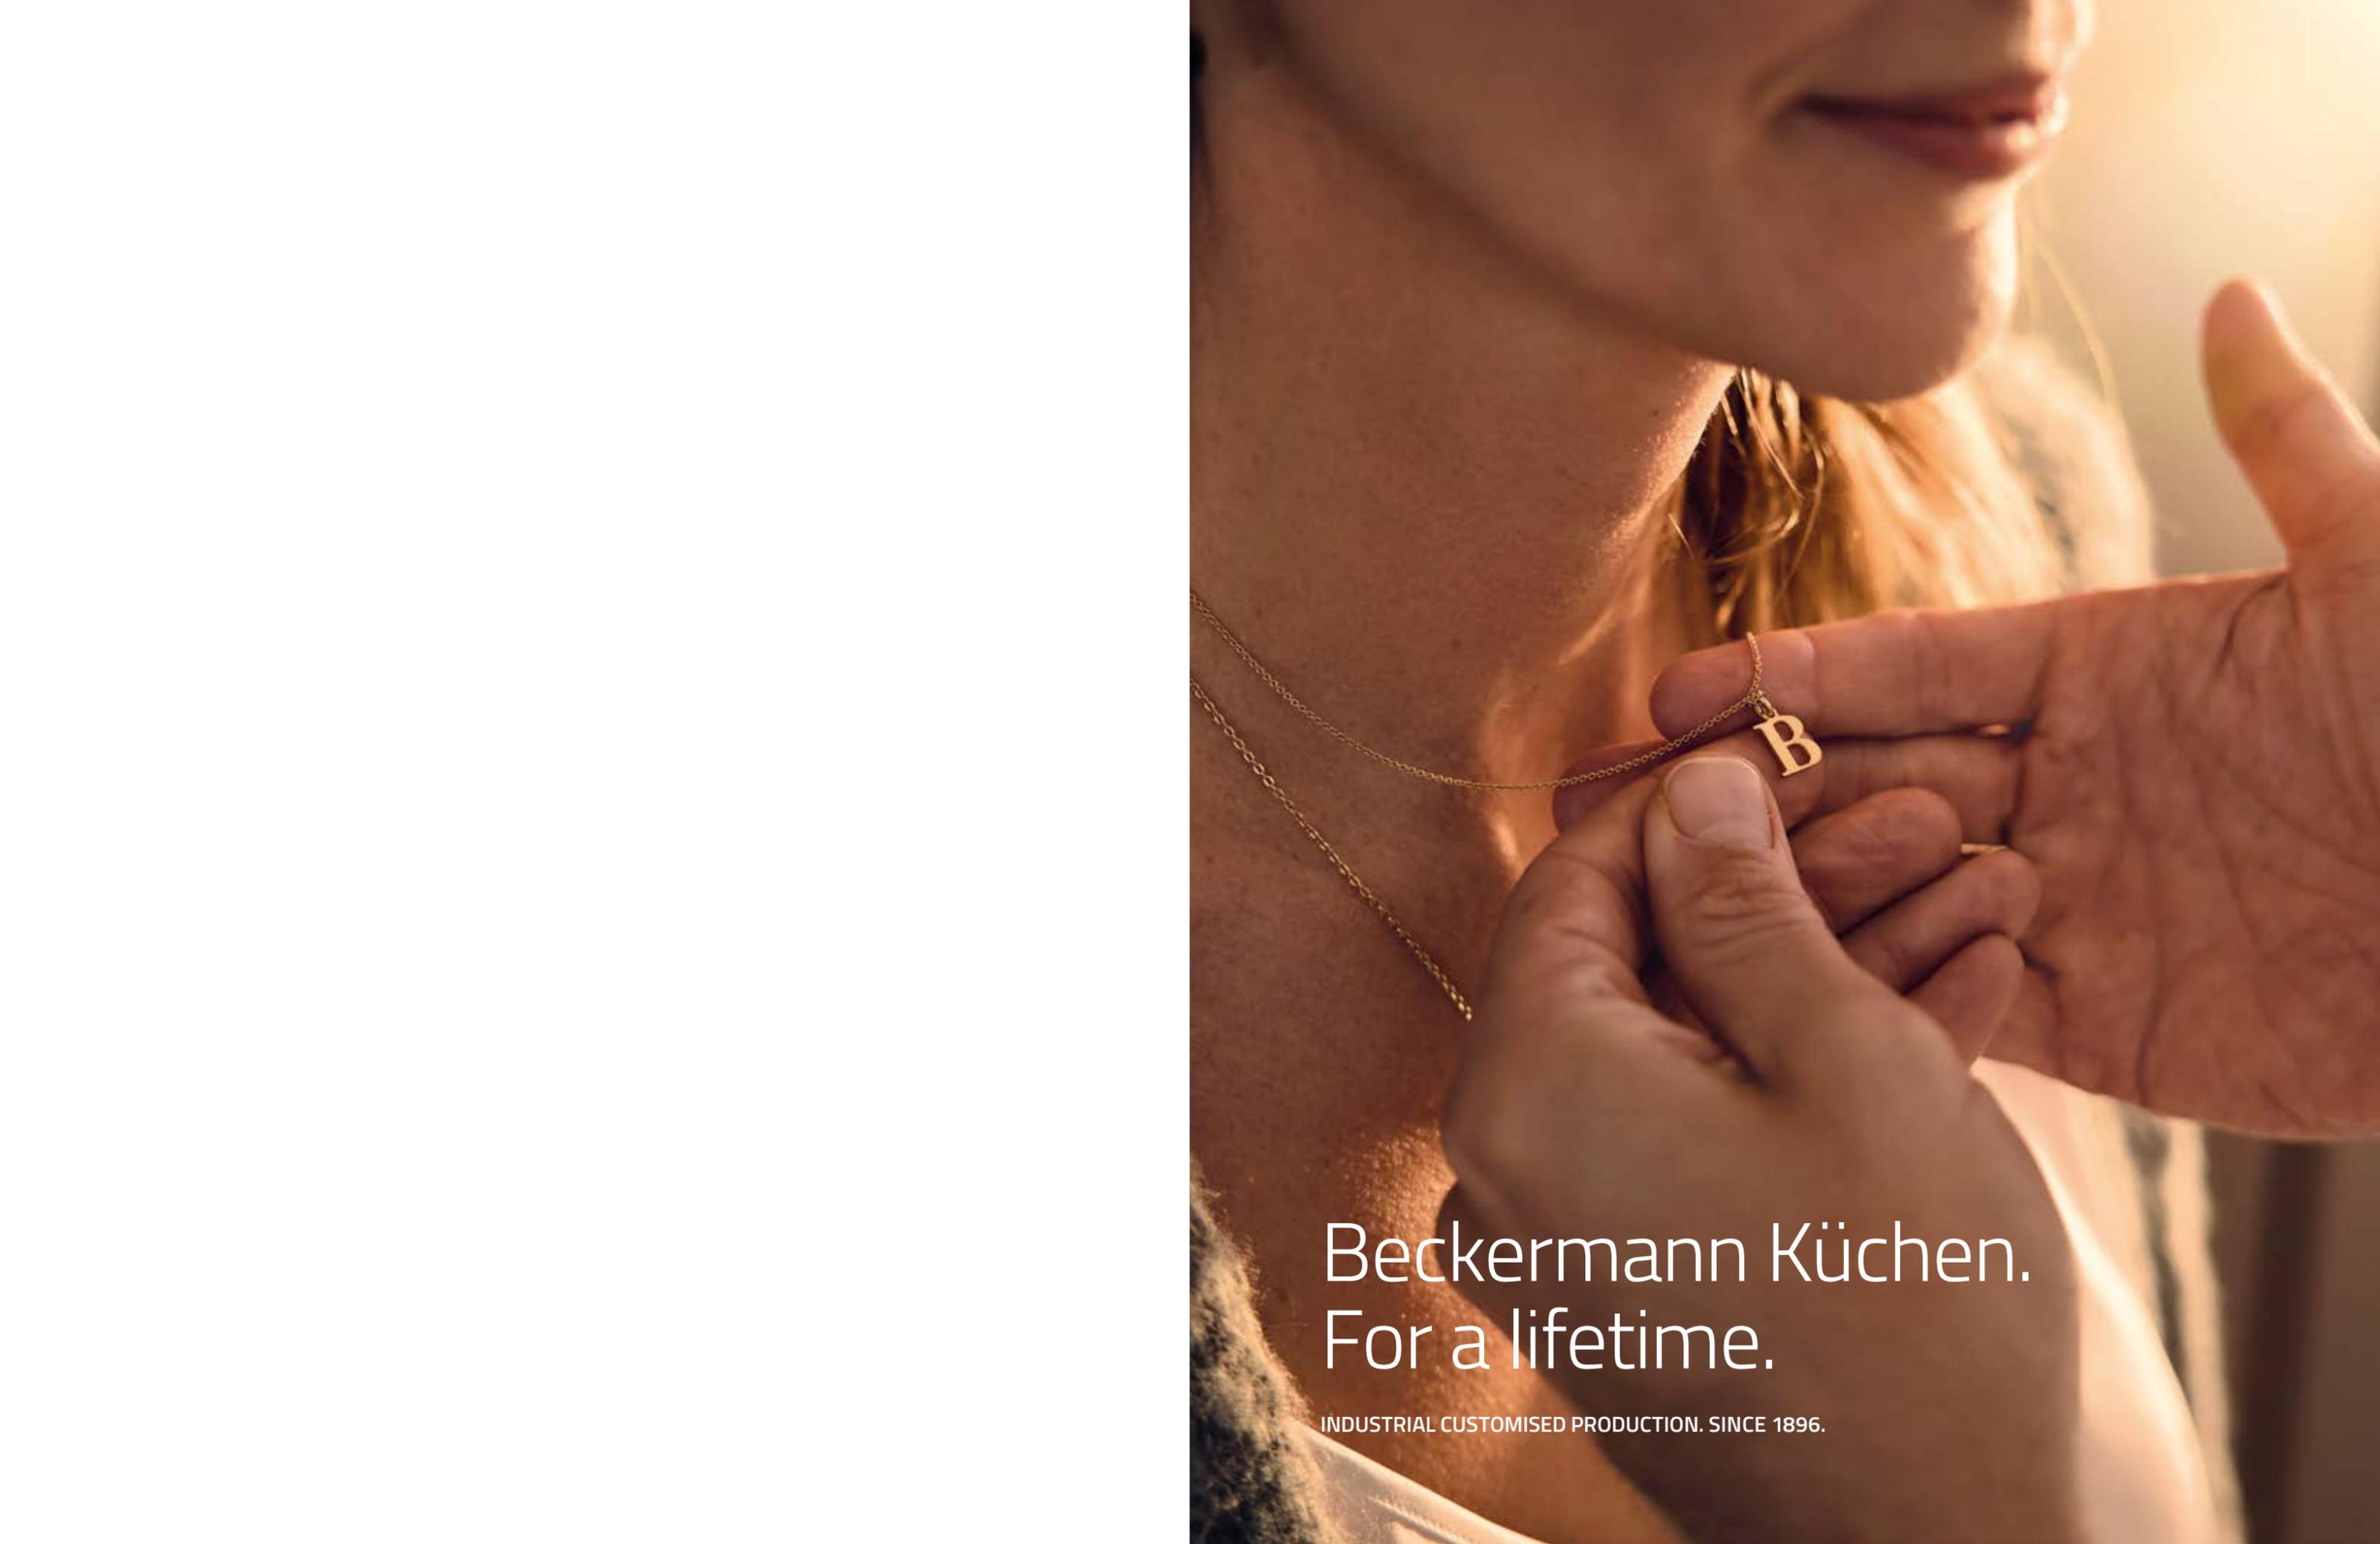

Raumübergreifende Wohnkonzepte sind voll im Trend – Leben, Kochen und Arbeiten lassen sich mühelos miteinander verbinden. Dank integrierter Home-Office-Möglichkeit lässt sich Familie und Job wunderbar unter einen Hut bringen und vor allem bleibt mehr Zeit für echte Qualitytime.
